

“Precision Tools for Professional Results”

Rooney Manufacturing Co. LLC DBA Big Gator Tools
FOR IMMEDIATE RELEASE: 10/1/2021

Big Gator Tools Introduces the Standard V-DrillGuide® (33/64”-5/8”)

LOUISBURG, KANSAS – Big Gator Tools continues to expand its drill guide line with the introduction of the new *Standard V-DrillGuide® (33/64”-5/8”)*. This drilling accessory allows users to have the precision of a drill press for the fraction of the price without losing the accuracy. The *Standard V-DrillGuide® (33/64”-5/8”)* is expected to debut at the 2021 National Hardware Show October 21-23 in Las Vegas, NV.

This drill bit guide is the 6th drill guide by Big Gator Tools and the 4nd standard version. This marks the 10th tool designed and patented by Big Gator Tools. Manufacture Part Number: STD3000DGNP.

“This new Standard drill guide has 8 hole sizes, and is the largest Standard version available going up to 5/8”,” said Bruce Rooney, Owner of Big Gator Tools and designer of the *Standard V-DrillGuide® (33/64”-5/8”)*. “It’s like a portable drill press, very precise. Drill straight, every time.”

The portable *Standard V-DrillGuide® (33/64”-5/8”)* is easy to use: position the drill guide on the material, clamp and drill. It can be used on various surfaces.

The *Standard V-DrillGuide® (33/64”-5/8”)* has 8 holes that will not be worn-out because of the rigorous heat-treatment process we use for the steel tool. These holes are smooth, unlike drilled or reamed holes. The hole sizes and hole alignment marks are permanently embedded onto the guide to allow quick and explanatory drilling sizes. The 8 holes sizes (1/64” increments): 33/64”, 17/32”, 35/64”, 9/16”, 37/64”, 19/32”, 39/64”, 5/8”.

All of our various V-DrillGuides stand out in the industry and are considered innovative due to the 90° “V-groove” design that runs through the entire guide. The “V-groove” is found on the bottom of the guides that allow users to drill on round or cornered material. The bottom also features a flat base to allow users to work on flat surfaces.

All V-DrillGuides carry a *lifetime warranty* and are *100% USA made*. Time and money will be saved by drilling a hole once with perfectly aligned holes on wood, plastic, metal or other surfaces.

Other sizes include:

<i>Standard V-DrillGuide® (3/8” – 1/2”)</i>	<i>Item #: STD2000DGNP</i>
